## **1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN**

Pacific Empire Minerals Corp. (the "Company") was incorporated on July 13, 2012, under the Business Corporations Act (British Columbia). The Company's principal business activities are the acquisition and exploration of mineral properties in Canada. The Company's common shares are listed on the TSX Venture Exchange ("TSX-V") under the symbol "PEMC". The Company's head office address is at Suite 804, 525 Seymour Street, Vancouver, British Columbia V6B 3H7, Canada and its registered and records office is located at Suite 1700, 1055 West Hastings Street, Vancouver, British Columbia V6E 2E9, Canada.

These condensed interim financial statements have been prepared using IFRS Accounting Standards ("IFRS") applicable to a going concern, which assumes that the Company will be able to realize its assets, discharge its liabilities and continue in operation for the following twelve months.

Realization values may be substantially different from the carrying values shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. The Company's continuing operations and the ability of the Company to meet mineral property and other commitments are dependent upon the ability of the Company to continue to raise additional equity or debt financing and to find joint venture partners. At the date of these financial statements, the Company has not identified whether any of its properties contain ore reserves that are economically recoverable. At September 30, 2024, the Company has not achieved profitable operations and has accumulated losses since inception.

As at September 30, 2024, the Company had working capital of \$412,812, accumulated deficit of \$7,401,625 and cash of \$465,027. With its current plans for the year and the budgets associated with those plans, in order to continue funding its administrative and exploration expenditures from the date of these financial statements, the Company may need to obtain additional cash and anticipates either financing or selling one or more of its assets. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

## **2. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION**

### **Statement of Compliance**

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with IFRS as issued by the International Accounting Standards Board ("IASB").

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as fair value through profit or loss, which are stated at their fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

### **Reclassification**

Certain comparative figures have been reclassified to conform to the current year presentation.

### **Summary of Material Accounting Policies**

These condensed interim financial statements follow the same accounting policies and methods of application as the Company's most recent annual financial statements, except as described below, and should be read in conjunction with the annual audited financial statements of the Company for the year ended March 31, 2024.

### 2. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### Critical Accounting Judgments and Significant Estimates and Uncertainties

The critical judgments and estimates applied in the preparation of the Company's unaudited condensed interim financial statements for the six months ended September 30, 2024, are consistent with those applied in the Company's March 31, 2024 audited financial statements.

#### New Accounting Policies Issued But Not Yet Effective

Certain pronouncements have been issued by the IASB or IFRIC that are not mandatory for the current period and have not been early adopted. The amendments are effective for accounting periods beginning on or after January 1, 2025, with earlier application permitted. The Company has reviewed these updates and the amendment that is applicable to the Company is discussed below:

##### IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements, which will replace IAS 1, Presentation of Financial Statement aims to improve how companies communicate in their financial statements, with a focus on information about financial performance in the statement of profit or loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new principles for aggregation of information. IFRS 18 is accompanied by limited amendments to the requirements in IAS 7 Statement of Cash Flows. IFRS 18 is effective from January 1, 2027. Companies are permitted to apply IFRS 18 before that date. The Company is currently assessing the impact of the new standard.

### 3. RECEIVABLES

The Company's receivables arise from goods and services tax ("GST"), mineral exploration tax credits ("METC") from government taxation authorities, and reclamation deposits settled and being returned to the Company.

As at September 30, 2024 and March 31, 2024, the current receivables consisted of the following:

	September 30, 2024	March 31, 2024
Goods and services tax receivable	\$ 62,792	\$ 50,218
Mineral exploration tax credits	114,555	112,603
Reclamation deposits settled	-	13,905
	<u>\$ 177,347</u>	<u>\$ 176,726</u>

During the six months ended September 30, 2024, the Company received \$Nil (2023 - \$Nil) from GST refunds.

### 4. MARKETABLE SECURITIES

As at September 30, 2024, and March 31, 2024, the Company had the following marketable securities:

	September 30, 2024	March 31, 2024
<b>Fair value through profit or loss</b>

### **11. LEASE LIABILITY (Continued)**

In May 2021, the Company entered into a lease agreement with 525 Seymour Inc. for office space in Vancouver, BC. The lease was for 18 months until November 30, 2022. On December 1, 2022, the Company extended the lease agreement with 525 Seymour Inc. for 2 additional years until November 30, 2024. As a result of the extension, the Company recognized an additional \$45,139 in right-of-use assets as at March 31, 2022. As at September 30, 2024, the expected remaining cash commitments were \$4,137.

### **12. EQUITY**

#### **Authorized**

The Company is authorized to issue an unlimited number of common shares and preferred shares without par value.

#### **Share Capital**

No preferred shares have been issued from incorporation to September 30, 2024.

*During the six months ended September 30, 2024:*

The Company completed a private placement raising an aggregate of \$722,500, by issuing 14,450,000 units at a price of \$0.05 per unit. Each unit consists of one common share in the capital of the Company and one common share purchase warrant. Each warrant will entitle the holder to acquire one common share at an exercise price of \$0.08 per common share for a period of 36 months from the closing date of the offering.

In consideration of the private placement, an aggregate total of \$26,075 in cash finder's fees were paid and 521,500 finder's warrants valued at \$26,561 were issued to qualified parties. The finder's warrants are subject to the same terms as the warrants issued as part of the units. The weighted average fair value of the finder's warrants issued as part of the private placement was estimated as of the date of the issuance using the Black-Scholes pricing model with the following assumptions: risk-free interest rate of 4.03%, dividend yield of 0%, volatility of 213% and an expected life of six years.

The Company paid an additional \$13,533 in legal and filing fees included in share issue costs.

Pursuant to the application of the residual value method with respect to the measurement of shares and warrants issued as private placement units. The Company determined the fair value of the share component to be the more easily measurable component and determined there was no residual fair value to allocate to the warrant component.

*During the six months ended September 30, 2023:*

In May 2022, the Company issued 200,000 common shares for the Jean Marie property valued at \$5,000 or \$0.025 per share.

#### **Stock Option Plan**

As at September 30, 2024, the Company had a stock option plan that allows the Board of Directors to grant incentive stock options to the Company's officers, directors, related company employees and consultants to purchase up to that number of common shares equal to 10% of its outstanding shares for a term of up to ten years. The exercise price of each option is to be not less than the fair market value of the Company's stock as determined by the Plan administrator. The vesting terms are determined at the time of the option grant.

### 13. SEGMENTED INFORMATION

The Company operates in a single reportable operating segment, being the acquisition and exploration of mineral properties. As such, all of the Company's property and equipment and exploration and evaluation assets are located in Canada.

### 14. FINANCIAL AND CAPITAL RISK MANAGEMENT

#### Financial Risk Management

The Company's financial instruments are exposed to certain financial risks, which include currency risk, credit risk, liquidity risk, interest rate risk, and market risk.

#### Currency Risk

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. Although the Company operates only in Canada and all expenditures are incurred in Canadian dollars, U.S. dollars are sometimes held by the Company. As at September 30, 2024, the Company did not hold a significant balance of U.S. dollars. Therefore, a change in the currency exchange rates between the Canadian dollar relative to the U.S. dollar would have an immaterial effect on the Company's results of operations, financial position or cash flows. The Company has not hedged its exposure to currency fluctuations.

#### Credit Risk

Credit risk arises from cash as well as credit exposures to counterparties of outstanding receivables and committed transactions. There is no concentration of credit risk other than on cash deposits and receivables. The Company's cash deposits are primarily held with a Canadian chartered bank. Further, receivables comprise amounts due from the federal government. Therefore, credit risk is considered low.

### **14. FINANCIAL AND CAPITAL RISK MANAGEMENT (Continued)**

#### **Liquidity Risk**

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities and the ability to pay obligations as they fall due. Financial liabilities, at September 30, 2024, included \$41,728 of accounts payable and accrued liabilities, \$225,813 in amounts due to related parties and \$4,137 of current lease liabilities. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

#### **Interest Rate Risk**

When the Company has sufficient cash, it will invest in term deposits which can be reinvested without penalty after thirty days should interest rates rise. As at September 30, 2024, the Company did not have any interest-bearing loans. Accordingly, the Company does not have a significant interest rate risk.

#### **Market Risk**

The Company is exposed to market risk because of the fluctuating values of its publicly traded marketable securities. The markets in which the Company holds equity investments are subject to volatility and price changes. The Company has no control over these fluctuations and does not hedge its investments. Based on the September 30, 2024 value of marketable securities a 10% increase or decrease in the share prices of these companies would have an immaterial impact on loss and comprehensive loss.

#### **Management of Capital**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its mineral properties. The Company relies mainly on equity issuances to raise new capital and on entering into joint venture agreements on certain properties which enables it to conserve capital and to reduce risk. In the management of capital, the Company includes the components of shareholders' equity. The Company also has receivables including mineral exploration tax credits, GST, and reclamation deposits to be received. The Company prepares annual estimates of exploration and administrative expenditures and monitors actual expenditures compared to the estimates. The Company's investment policy is to invest its cash in savings accounts or highly liquid short-term deposits with terms of one year or less and which can be liquidated after thirty days without interest penalty. There have been no changes in the approach to managing capital during the six months ended September 30, 2024. Management believes that it will need to seek additional capital to continue its exploration programs and general and administrative costs. The Company is not subject to externally imposed capital requirements.

### 15. FINANCIAL INSTRUMENTS BY CATEGORY

The Company classified its financial instruments as follows:

	September 30, 2024	March 31, 2024
<b>Financial assets</b>		
Amortized cost:		
Cash	\$ 465,027	\$ 256,913
Restricted cash	17,500	23,000
Reclamation deposits	62,942	62,942
Fair value through profit or loss:

Due to related parties	225,813	205,525
	<u>\$ 267,541</u>	<u>\$ 374,440</u>

#### Fair Values

The Company characterizes inputs used in determining fair value using a hierarchy that prioritizes inputs depending on the degree to which they are observable. The six levels of the fair value hierarchy are as follows:

- Level 1: inputs represent quoted prices in active markets for identical assets or liabilities. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: inputs other than quoted prices that are observable, either directly or indirectly. Level 2 valuations are based on inputs, including quoted forward prices for commodities, market interest rates, and volatility factors, which can be observed or corroborated in the marketplace.
- Level 3: inputs that are less observable, unavoidable or where the observable data does not support the majority of the instruments' fair value.

As at September 30, 2024, there were no changes in the levels in comparison to the year ended March 31, 2024.

Financial instruments which are measured using the fair value hierarchy include marketable securities, which are categorized as Level 1.

The carrying values of cash, restricted cash, receivables, reclamation deposits, accounts payable and accrued liabilities and due to related parties approximate their fair value because of the short-term nature of these instruments.

### 16. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

Significant non-cash investing and financing transactions during the six months ended September 30, 2024 included:

- The recording of \$26,561 (2023 - \$Nil) in share capital and reserves related to the fair value of finders' warrants issued (Note 12); and
- The reallocation of \$Nil (2023 - \$48,633) from reserves to share capital for warrants expired in the period (Note 12); and
- The reallocation of \$Nil (2023 - \$270,442) from reserves to deficit for stock options expired in the period.
